Level Max Health: Stat Tiers	
Who are you? Who do you wa	ant to be? Who's your family?
What do you look like?	What are your morals?
When in your life a	re you adventuring?
Where did you come fro	m? Where are you going?
<u>Why</u> are you adventurir	ng? Why with this group?

Levels

When you make your character, **distribute 8 SP** to your Stats however you want. I recommend focusing on 1 or 2 Stats.

You have 10 Max Health and 4 SP **per Level**.

Distribute SP into Stats from top to bottom (Stats start with 1 SP). Once you put 1 SP in a **tier**, you unlock everything in that tier! Tier 6 of each Stat has no limit to the SP it can have.

Actions & Traits

Actions can be done in Combat by spending AP. Describe them however you want! They can't go through Hard Zone boundaries.

Traits are italicized and always active or automatically triggered when something happens.

Abbreviations

AP: Action Points. You have 5 to spend on Actions. Restored when Player Phase starts.

SP: Stat Points in this Stat. You start with 1 SP in each Stat.

LV: Your character's Level. 2*LV means 2 times your Level.

Combat

Often starts on **Enemy Phase:** Enemies move & attack. You can use some ^{EP}**Actions**.

Player Phase: Restore AP. Use **Move** once for free.

If you have O Health, you can't contribute to this fight!

I	n	V	e	n	t	0	r	y
---	---	---	---	---	---	---	---	---

Goals

STRENGTH
Smash a door open
Jump really high
Carry a friend
Intimidate a prisoner

SUPPORT
Craft makeshift shield
Lift friends up a cliff
Care for the injured
Concoct a poison

SKILL
Pick a locked door
Do a backflip
Help solve a riddle
Deceive a guard
SCHARISMA
26.17.11(12).17

SKII I

Open the door
Do a cool backflip
Tell an uplifting joke
Break a guard's mind

Here are some ideas on how you can roleplay with your Stats!

Rounding
Always round up!

Roleplaying

To roleplay, think on how your character would act in a moment and describe your character's behavior.

Your GM might ask you to roll a Stat. You can argue to roll a different Stat you think fits better.

Roll 1d6 and add that Stat's highest, unlocked Tier.

(if you have 8 SP in Strength, add 2 to your roll)

In combat, you can do stuff that isn't listed as an Action, like pulling a lever or grappling an enemy, if you spend 1 AP to roleplay it.

Tier 5

(**5** AP) <u>Powerhouse</u>: Distribute LV+SP damage to multiple targets. Heal LV Health to yourself.

Indomitable: You have 13 Health per level.

This replaces *Hearty*.

Tier 6

<u>Critikill Role</u>: Take SP damage to deal LV+SP damage to a target without spending AP. You can only do this once per combat session.

Tier 1

(1 AP) Move: Move to an adjacent Zone, moving through a Soft Boundary (- - - - -)

(3 AP) **Spate**: Distribute SP damage across multiple targets.

Tier 2

EP(1 AP) Focus: Reroll a roll you just made.

This can be done during any Phase.

(1 AP) **Quick Attack**: Deal 2* LV damage to a target in your Zone.

9

12

Tier 3

EP(1 AP) Entrust: Give a target 1 AP.

This can be done during any Phase, once per Phase.

Strategem: When another Player moves, you or a target of your choice can Move for free.

16 **17**

18

Tier 4

EP(2 AP) Evade: When you take damage, reduce it by 2*LV. This can be done during any Phase, once per Phase.

(2 AP) First-Aid: Heal SP Health to a target in your Zone.

Tier 5

EP(? AP) CopyCat: When someone else does an Action, you can do that Action by spending the same AP.

Spend an extra AP to use SP in a Stat of your choice.

Flow: At the start of each Enemy Phase, roll 1d6.

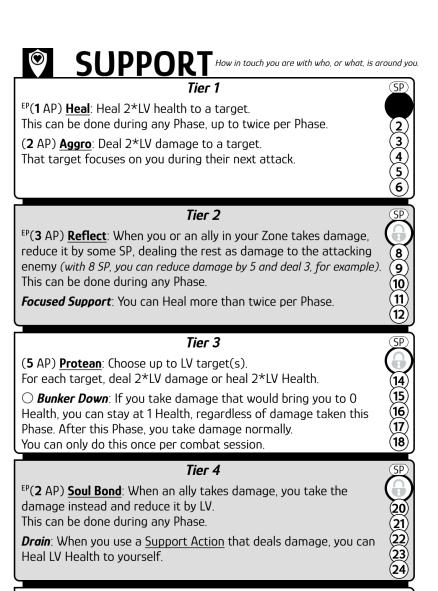

If you roll a 6, you gain 1 AP.

This roll cannot benefit from **Help**.

Tier 6

Perfect Parry: When you take damage, roll LVd6. If you roll a total higher than SP, reduce the damage by LV.

(**3** AP) **Phoenix**: Choose an ally with 0 Health. Next Player Phase, their Health is healed to SP.

^{EP}(**5** AP) <u>Passage of Arms</u>: Reduce all damage by SP for all allies in your Zone until the next Player Phase. Reduce your damage by LV. This can be used during any Phase, once per Phase.

26

Tier 6

Guardian Angel: When an ally falls to 0 Health, you can take 3*LV damage to heal that ally to SP at the start of the next Phase.

How much you affect who, or what, is around you **SCHARISMA**

EP(1 AP) Help: Add 1 to the total of any roll.

This can be done during any Phase, once per Phase.

EP(1 AP) **Hinder**: Reduce the total of any roll by 1.

This can be done during any Phase, once per Phase.

Tier 2

Troupe: When you Roleplay in Combat, any player can use **Help** on you for free the first time they use it this combat session.

EP(1 AP)Fate's Design: During any Phase, once per Phase, you can "spend" SP to heal or deal damage to a target. This pool of SP is restored when you level up and put at least 1 more SP in Scharisma. Remaining SP:

9

(10)

11

12

Tier 3

(3 AP) Ultimate Group Attack of Friendship: Deal damage to a target equal to each Players' highest SP. You can only do this once per combat session.

EP**Motivation**: You can let an ally in your Zone reroll a roll they make. Only LV rolls can be rerolled per combat session.

15 16

17) 18

Remaining Rerolls:

Tier 4

EP(1 AP) Inpiration: Take SP damage to allow a Player to automatically roll a 6 with one die during a roll. This can be done once per Phase, during any Phase.

Stunt Performer: Add 1 to your rolls when roleplaying in combat.

Tier 5

(3 AP) **Revival**: Choose an ally with 0 Health. Next Player Phase, their Health is restored to 2*LV.

(,:) Succor: When any Player rolls a 1, you can heal LV Health to any Player, once per roll.

Tier 6

The Show Must Go On: You can reduce the SP in Scharisma by LV to heal all other Players' Health by 10*SP reduced.
